THE TRUE DEMOCRAT.

JOHN G. COLLINS, Publisher.

PUBLISHED EVERY FRIDAY MORNING.

A THREATENING PROSPECT.

A correspondent of the Blountstown Democrat has been dreaming about the Panama canal, and thus opens up a new vein of inquiry and speculation:

You are all aware that Morgan and others have been for more than ten or twelve years trying to get a bill passed in Congress, called the Panama Canal bill, to cut a canal from the Atlantic to the Pacific Ocean, and of course the bill has been passed, and they have been at work on it for some time. I dreamed they finished the work, or at least when they got it cut from the center to each in Florida, for the politicians, is the ofocean, they discovered that one ocean was higher than the other (and so it is). some say four, some say eight, and others fourteen feet. In my dream they were somewhat puzzled, but they cut both ends out. I dreamed the canal was five hundred feet wide and 150 feet deep, and when the waters from each ocean met in the canal there was a great upheaval and splashing of water, and after awhile the waters calmed, and the vessels plied to and fro, and everything was lively. I dreamed that a great storm arose on one of the oceans, and the wind was just right to drive the water through draining off this water, can hardly be the canal for twenty-four hours, and every housetop in Galveston, Texas, was covered with water, and the water was twenty feet deep in New Orleans, and I in the world, it don't pay to work them, dreamed the Gulf of Mexico was drained dreamed the Gulf of Mexico was drained on account of the pull the "sugar trust" dry and it became fertile, some of the has with the G. O. P. The people of finest crops I ever saw being raised in the Gulf. I don't believe in dreams much, but God saw fit to place this ridge of land between those two great bodies of water. Who knows but what some portion of our country will be drowned out when these waters come together? And you all know that New Orleans and Galveston are about the lowest places in the South.

MEDICAL VOLUNTEERS.

From the Pensacola Journal]

The following, from the Tallahassee True Democrat, while probably intended as a harmless little piece of pleasantry, nevertheless does the members of the medical profession a gross injustice. The True Democrat says :

"Have you heard of any professional nurse or physician volunteering to go to Pensacola and relieve those overworked and almost exhausted nurses and doctors?"

Now the fact is that Pensacola has not required the services of outside physicians. Had we done so and made an appeal for their assistance, we have no doubt that there would have been plenty of volunteers to supply the need
As it was, Dr. John McDiarmid, of

DeLand, Fla., volunteered his services and came to Pensacola, remaining two or three weeks and assisting in the work, but seeing that the local physicians were able to take care of the situation, he re turned home.

One other physician, Dr. Hiram Byrd, volunteered to go to Pensacola at the outbreak of the fever, and has been here, bravely fighting it, ever since. Dr. Byrd is, of course, in the employ of the State Board of Health, but he volun-

As for nurses, several outside nurses are now and have been attending the sick in Pensacola for several weeks.

City Health Officer Pierpont informs the Journal that at no time has the situation here got beyond the control of the local physicians. Had it done so, he but that it would have been generously furnished by the other physicians of the

Isham Edwards Hanged.

An unavoidable delay in issuing the paper, caused by the city ascessment 116 years of George Washington, John list, enables us to say that Isham Edwards paid the penalty of his crime at 12:45 to-day, after delivering a rambling and absurd harangue from the scaffold. Immense crowds of negroes from all parts of the adjacent country came to the city, but few could gratify their curiosity, as the execution was private, within the jail enclosure.

You can have it for the asking The Governor's Message-"bound in boards," You will miss it if you fail to secure a

its history, topography, climate, soil, resources and natural advantages, mostly compiled and gotten up by Hon. Henry S. Elliott, and issued from the Agricultural Department by Commissioner B. E. McLin, was a splendid pamphlet for immigration purposes, as far as the meat in the cocoanut went, but Oh, my! What an opinion every one in the State, and out of it too, except the printer of it, and the State officers who received nation should be prepared for any emerand paid for it, must have had of Florida printers and publishers! If you have a copy inspect it for its artistic appearance and pass upon it as a printer.

Cured Consumption.

Mrs. B.W. Evans, Clearwater, Kans. writes : "My husband lay sick for three months. The doctors said that he had quick consumption. . "We procured a bottle of Ballard's

Horehound Syrup, and it cured him. That was six years ago. Since then we have always kept a bottle in the house. We cannot do without it. For and is now read coughs and colds it has no equal." 25c., select boarders. 50c. and \$1.00. For sale by all druggists.

EVERGLADE DRAINAGE PROBLEMS.

Danger Predicted to the Citrus and Vegetable Interests.

A correspondent of the Bradentown Journal thus discourses concerning one aspect of Governor Broward's drainage scheme:

Our present Governor is good-looking and manages to keep up a reasonable appearance at honosty, but he had to promise to do some devilment before he could be elected. The Governors ahead of him got rid of all the timbered land, and now the only devilment he can do

is to get rid of the water. Now, I want to add another plank to my platform: Dam up the Disston canals, and don't allow any more land drained on a big scale. The big thing fice, but the biggest thing for the people of South Florida is the citrus fruits and the climate. Before the Disston company drained millions of acres of land, that always stood from four to fifteen feet under water, the large lakes around Eustis, Leesburg and Apopka were lowered several feet. We could raise a grove from small trees in a few years, but now the winters are so cold, for the want of the moisture this water supplied, we are hardly able to keep the old trees, and the loss to the State on account of the risk brought about by estimated; and the land drained has proven worthless, so far, only for cow range. Being as fine lands as there are South Florida ought to help DeSoto enjoin and stop, if possible, the destruc-tion of our climate by draining land that can't possibly pay the State; for we all know, to take away the orange and grape fruit groves, and the balmy, bracing air that gives strength and hope to the suffering sick of the colder States, and what have we left?

Is it possible that the people who have all their interests here in homes and groves, and town property, can't see, in the destruction of the timber and water of our section, that everything else that depends on tropical climate will perish with it? Ain't there no way to call a halt, before it's too late? Oh! for a Patrick Henry on every stump in the United States, to wake up the farmers, fruit-growers and truckers, before the trusts and political combines ruin us forever! No-let us dam up, buy back, take control, stop the leaks, or do anything honest, just so we do it quick, to stop such wholesale destruction of individual rights to gratify a few who have a pull on the public crib.

would like to hear from some of our educated men on the effect of drainage on our climate.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so ong you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and State Board of Health, but he volunteered his services before the State health officer called on him to go.

Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and la

What McCurdyism Means.

From the New York World.]

During the 116 years of the republic the government of the United States would not have hesitated to call for out- has paid in salaries to its twenty-five side aid, and he has no doubt whatever presidents a total of \$3,700,000. During the last twenty years the Mutual Life Insurance Company has paid to three members of the McCurdy family about \$4,600,000. Against twenty years of Richard McCurdy, Robert H. McCurdy and Louis A. Thebaud must be set off Adams, Thomas Jefferson, James Madison, James Monroe, John Quincy Adams, Andrew Jackson, Martin Van Buren, William Henry Harrison, John Tyler, James K. Polk, Zachary Taylor, Millard Filmore, Franklin Pierce, Jas. Buchanan, Abraham Lincoln, Andrew Johnson, Ulysses S. Grant, Rutherford W C Hodges. - T C lot no. 133. n a, house. - \$800. B. Hayes, James A. Garfield, Chester A. Arthur, Grover Cleveland, Benjamin Harrison, William McKinley and Theodore Roosevelt and with a balance of \$900,000 in favor of the McCurdy's at that. If the total salaries paid to the twenty-five presidents there be add-"Florida," a pamphlet descriptive of ed the total salaries paid to the twenty-shistory, topography, climate, soil, resix vice-presidents, the McCurdy's will still have more than \$20,000 the better

In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given us our greatest men. The individual as well as the gency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds, and it should be kept at hand ready for instant use. For sale by all druggists.

Board. .

The attractive home of Mrs. George Greenhow, at No. 405 North Monroe street, has been lately remodeled and furnished with modern improvements, and is now ready to accommodate a few
